#### FROM THE PRESIDENT PERCH.....

Dear Phellow Phlocker,

This month we will be doing a special collection that we don't do very often. We call it 'Parrot Heads helping Parrot Heads'. Long time members Jodi and Dale McMannis have been undergoing a terrible nightmare for over a year. Normally, a middle aged, strong, healthy man, Dale received the surprise news that he had cancer in his throat. At first, it was going to be a fairly simple procedure to remove it and use radiation therapy. Instead, Dale and Jodi have endured traveling from state to state to various hospitals, receiving hopeful news only to be told soon after that the cancer has come back. They have been able to attend a few happy hours during this time. And it makes them feel 'normal' to be amongst friends for a couple of hours.

Recently, Dale's condition has deteriorated. They remain hopeful and continue to fight at Moffit Cancer Center over in Tampa. On top of this unimaginable situation, Dale and Jodi are experiencing extreme financial difficulties. Dale has not received a paycheck in almost two years. His health insurance was cancelled at the beginning of this year. They are struggling to buy the basics. So, we are asking members to bring some of the basics to Happy Hour this month. Items such as Carnation instant breakfast mix, gift cards from Publix, Walmart, CVS, Walgreens, Gas Stations and cash are needed.

We will also be putting together a Thank you board and taking a picture of all of us doing a 'Team Drink' to them. Hopefully, this will show them that they are in our thoughts and one of our purposes for partying, at this particular Happy Hour, is to support them.
